

INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/011199

A. CLASSIFICATION OF SUBJECT MATTER
Int.Cl⁷ B81C5/00, B05D1/26, B05D5/06

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Int.Cl⁷ B81C5/00, B05D1/26, B05D5/06

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Jitsuyo Shinan Koho 1922-1996 Toroku Jitsuyo Shinan Koho 1994-2004
Kokai Jitsuyo Shinan Koho 1971-2004 Jitsuyo Shinan Toroku Koho 1996-2004

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X Y	JP 2000-516529 A (Heidelberger Druckmaschinen AG.), 12 December, 2000 (12.12.00), Page 11, lines 3, 4; page 16, lines 16 to 40; page 17, lines 6 to 12; Figs. 1, 3 to 5, 7 & WO 98/08144 A1	1 2, 3
Y	JP 8-71489 A (Matsushita Electric Industrial Co., Ltd.), 19 March, 1996 (19.03.96), Par. No. [0093] (Family: none)	2, 3

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search
01 November, 2004 (01.11.04)

Date of mailing of the international search report
16 November, 2004 (16.11.04)

Name and mailing address of the ISA/
Japanese Patent Office

Authorized officer

Facsimile No.

Telephone No.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/011199

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The invention of claim 1 relates to a three-dimensional structure formed by solidifying a liquid drop, claims 2-3 relate to concentrating an electric field at an solidified object, claims 4-7 relate to controlling volatilization characteristics of a liquid drop, claim 8 relates to a fluid being a solution containing ultra-fine metallic particles, claim 9 relates to a fluid being a high-molecular solution, claims 10-11 relate to a fluid being a solution containing ceramic, claims 12-13 relate to a fluid being a low-molecular solution, claims 14-16 relate to the size of a liquid drop,
(continued to extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☒ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

Claims 1-3

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☒ No protest accompanied the payment of additional search fees.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/011199

Continuation of Box No.III of continuation of first sheet(2)

Claims 17-19 relate to drying and solidifying time, claims 20-22 relate to flight velocity, claim 23 relates to an atmosphere, claim 24 relates to a dielectric constant of a fluid, and claims 25-31 relate to a three-dimensional structure with a fine diameter.
